### INTERESTS

**Building SaaS** (Software as a service)

**Business:** started my own t-shirts printing business at 17 years.

**Leadership:** Attend PAYLP (Pan Africa Youth Leadership Program 2022) – A one-month program in USA dedicated to young leaders from more than 19 countries.

## PROJECTS

### ***Zandoo (still in progress)***

- A full-stack e-commerce web app to allow people to sell and buy items in Kinshasa
- The main idea is to offer an application to support the fast growing e-commerce market in Kinshasa.
- Functionalities to come: Authentication, Payment method – Mobile money and Visa- and e-commerce shop management.
- Tech stack: NextJS, Firebase for Authentication, PostgreSQL as DB, React Native (for the mobile app version)

### ***Dartistes.com (live)***

- A web site of my web agency. The website was made from scratch and will be updated frequently as we continue to grow the agency's number of projects.
- Tech stack: NextJS, Tailwind CSS, Shadcn, React icons

### ***Dixi website (arnmadi.github.io)***

- A web site of my one of my clients.

## OTHER SKILLS

**Project management:** I have worked as team supervisor for several vaccination campaigns for OMS in Kinshasa. My mission involved to manage a team vaccinators and to collect critical demographic datas through ODC Collect (an app dedicated to data collect)

**Persistence:** I was among the pre-selected (top 10 candidacies) students for the Huawei 2024 Seeds for the future. Although I didn't go to Morocco, I never give up and I am getting ready for this round of the program.

## OTHER INTERESTS

**Reading:** My favorite books involve The art of war by Sun Tzu and The Compound Effect by Darren Hardy

**Problem solving:** I learnt my first programming language (QBASIC) at 16 years old.

**Strategy games:** I like playing Dame, Chess and many other games that require strategic thinking.

**Tennis:** I like the high combativeness in this sport.
